BIOCELL FARM MIX

The leading pure live yeast

This is the yeast that packs a real punch to maintain a good rumen function, reducing the risk of acidosis and improving feed conversion.

Biocell Farm Mix is stable and perfect for mixing in all TMR rations.

Also available in convenient buckets for dry cows, and as Biocell Lac for addition to calf milk to improve vigour and earlier finishing.

✓ Increased efficiency ✓ Higher Weight Gains ✓ Improved Health

MYCOCELL & MYCOCELL COMBI

The power to defeat mycotoxins

**Are you concerned about mycotoxins?
Ask for a FREE analysis of your feed.**

Mycocell Combi is the first and most effective combination of mycotoxin deactivator and protected pure live yeast. Both products are easily added to the TMR

FIRST CHOICE INOCULANT

Treatment for all forage crops and crimped cereals.

First choice ensures a fast, cool, fermentation combined with long term stability; essential for all year round feeding.

Available as standard 2 litres per tonne application, ultra-low volume and granular for dry application. Packed in 50-tonne treatment units for convenience and ease of mixing.

✓ **First Choice Is Effective In All Conditions**

✓ **24hr Courier Service**

SLURRYCELL

The cost-effective solution

Do you want to save time and money? Add Slurrycell to your store, lagoon, or under slats to prevent solid build up.

"We pumped out a tank of slurry today that usually takes the best part of the day, but with Slurrycell it took only two hours. Thanks."

Andrew MacKay | Contractor - Caithness

EWEMAX PERFORMANCE

Pure live yeast for ewes and lambs

Natural protein	12.0	High Energy - 12.7ME	
Oil%	5.0	Vitamin A iu/kg	150000
